

CLEAN-CUTS¹

HYDRAULIC HOSE KNIVES

Choosing the ideal knife for cutting hydraulic hose depends greatly on the saw you are using, the type of hose you are cutting and the production rates you require.

Specialty Saw, Inc. manufactures the following 6 types of knives designed to cut hydraulic hose. If you're not sure which is best suited to your application please call for our recommendation.

Clean-Cuts™ knives manufactured in: M-2, D-2, M-35, & Clean-Cuts™ High Speed Steels.

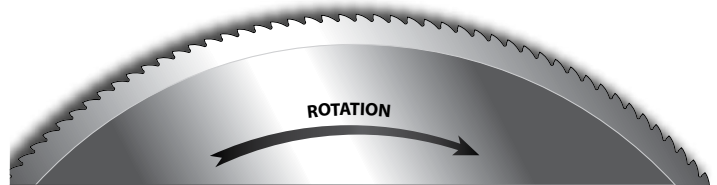

Clean-Cuts™ Advanced Scalloped Knife

Features advanced performance scalloped knife technology for cutting hydraulic spiral hose and wire helix hose resulting in cleaner cuts, faster cuts, no smoke, and longer blade life.

Available in 6" to 14" sizes to fit Clean-Cuts™, Aeroquip, Custom Crimp, Gates, Goodyear, Imperial Eastman, Parker, Stratoflex, Toledo, and Weatherhead saws.

Model	Diameter	Thickness	Arbor
HYD6X093X5/8	6"	.093"	5/8"
HYD7X093X5/8	7"	.093"	5/8"

HYD14X125X1	14"	.125"	1"
HYD14X160X40	14"	.160"	40mm

Please call for price, quantity discounts and sharpening.

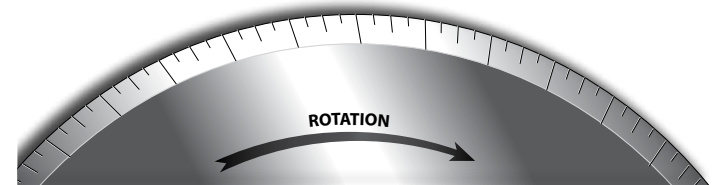

Micro-Slotted Smooth Edge Hydraulic Hose Knife

Features "new" micro-slotted smooth edge knife technology combining the better finishes of a double bevel knife with the more aggressive performance of a slotted knife. This is our most universal knife grind and will give you two times longer blade life than smooth edge knives. Used for cutting spiral hose, industrial hose, Teflon, PTFE, Kevlar, and metal hose.

Model	Diameter	Thickness	Arbor
MSE6X093X5/8	6"	.093"	5/8"

Diamond Hydraulic Hose Knife

Exclusively designed for cutting heavy 4 and 6 wire hydraulic hoses. This diamond grinding technology cuts down by 60% the debris while cutting heavy hoses very quickly as opposed to using abrasive wheels. You will get a fantastic finish and make 5 - 10 second cuts in 2" hose.

Available in 10" & 14" diameters to fit Clean-Cuts™ Hydraulic Hose Saws only.

Model	Diameter	Thickness	Arbor
HYD10X125X40D	10"	.125"	40mm
HYD14X160X40DS	14"	.160"	40mm

Please call for price, quantity discounts and sharpening.

Smooth edge knife designed for the best finish when cutting light duty hoses like single wire braid, textile reinforced, Poly or Nylon reinforced, and Teflon hoses.

Available in sizes 6"-36" to fit Clean-Cuts™, Aeroquip, Custom Crimp, Finn Power, Gates, Goodyear, Hydrosand, Imperial Eastman, Marken, O+P, Parker, Savage, Stone, Stratoflex, Techmaflex, Toledo, Uniflex, and Weatherhead saws.

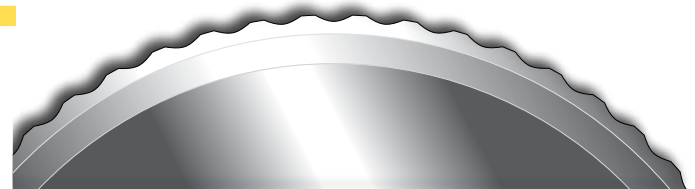

Notched Scalloped Hydraulic Hose Knife

Notched scalloped knives are designed for rough duty cutting on spiral hose up to 6 wire.

Available in sizes 6"-14" to fit Clean-Cuts™, Aeroquip, Custom Crimp, Gates, Goodyear, Hydrosand, Imperial Eastman, O+P, Parker, Savage, Stone, Stratoflex, Toledo, and Weatherhead.
